Wholeheartedly protect the safety and warmth of the home

全心全意 守护家园

美阁智能 • 高端定制

全闭环速度反馈调节  
Full closed loop speed feedback adjustment

故障自诊断和记录  
Fault self-diagnosis and recording

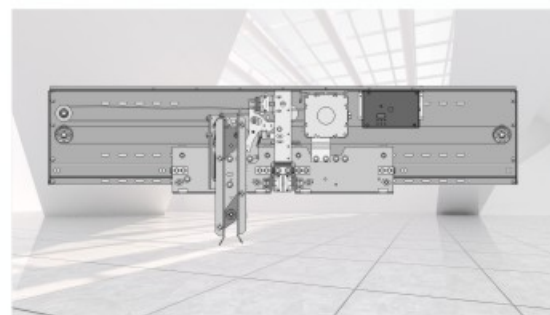

数据处理迅捷、稳健  
Fast and robust data processing

### 智能控制系统 Intelligent control system

高智能高集成度的新一代家用梯控制柜，不仅具备一体机控制器的全部标配功能，同时将ARD功能与物联网技术纳入其中。

The new generation of household ladder control cabinet with high intelligence and high integration not only has all the standard functions of the all-in-one controller, but also integrates the ARD function and the Internet of things technology.

### 微电脑门机系统 Microcomputer door operator system

将先进的VVVF全闭环伺服控制技术运用到门机系统，采用全新一代永磁同步电机与同步门刀集成技术，实现厅轿门同步开闭，真正做到电梯开关门控制精确度高、运行平稳和高效节能。

The advanced VVVF full-closed-loop servo control technology is applied to the door machine system, and a new generation of permanent magnet synchronous motor and synchronous door knife integration technology is adopted to realize the synchronous opening and closing of the hall door and truly achieve high accuracy of elevator door opening and closing control and stable operation And high efficiency and energy saving.

### 专用主机系统 Dedicated host system

永磁同步无齿轮曳引机，专为别墅电梯而设计，传动功率高，能耗低，无需油脂润滑，避免油污污染。极大的满足了用户对电梯产品稳定、节能、平稳运行的高要求。

Permanent magnet synchronous gearless traction machine, specially designed for villa elevators, has high transmission power, low energy consumption, no need for grease lubrication, and avoids oil pollution. It greatly meets the high requirements of users for the stability, energy saving and smooth operation of elevator products.

极致空间 自然通透

Extreme space, Naturally transparent

背包式平台曳引别墅电梯

灵巧多变的布局设计，背包式平台电梯探索极致空间。隐藏的机械结构全心保护运行安全，让美学迎面而来，开门一刻，心扉敞开。

Backpack platform traction villa elevator

The clever and changeable layout design, the backpack platform elevator explores the ultimate space. The hidden mechanical structure wholeheartedly protects the safety of operation, so that aesthetics can meet you, and the moment you open the door, the heart is open.

## 轩阁系列 Xuan Ge series

小身材，大作为，静音稳定  
Small size, big action, silent and stable

### 框架式钢带曳引别墅电梯

酣畅发挥机械之美，小井道，大空间。铝型材框架嵌入钢型导轨，力量加倍。平稳静音，承载更多幸福。

#### Frame steel belt traction villa elevator

Give full play to the beauty of machinery, small shafts, large spaces. The aluminium profile frame is embedded in the steel type guide rails, and the strength is doubled. Smooth and silent, carrying more happiness.

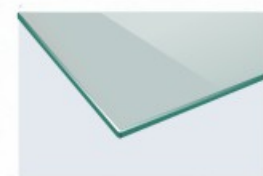

The hoistway frame is  
in full bloom

## 井道框架 多彩绽放

### 技术保障，专业定制

专业技术团队，行业前端技术水平，专业工程师多年行业工作经验，快速理解客户构思，更好的展现客户的意图。

#### Technical support, professional customization

Professional technical team, industry front-end technology level, professional engineers with many years of industry work experience, quickly understand customer ideas, and better show customer intentions.

### 安心服务，技术支持

工地施工过程中出现的各类问题，专业技术人员将及时解决。物联网24小时监控，远程预判潜在问题，及时上门保证电梯正常使用。

#### Peace of mind service, technical support

Professional and technical personnel will solve all kinds of problems in the construction process of the construction site in time. 24-hour monitoring of the Internet of Things, remote prediction of potential problems, and timely visits to ensure the normal use of the elevator.

### 体验至上，投诉处理

从购买安装到使用产品，过程中产生的问题，及时响应，妥善处理，并对问题进行统计，分析改进。注重口碑，提升用户使用体验。

#### Experience first, complaint handling

From the purchase and installation to the use of the product, the problems that arise during the process should be responded to in a timely manner, properly handled, and the problems will be counted, analyzed and improved. Focus on word of mouth and improve user experience.

### 源头品控，层层质检

严格控制源头进料品质，在产品生产过程中层层巡检防止不良零部件产生，尾检遏制不良产品流出，精益求精。

#### Source quality control, quality inspection

Strictly control the quality of incoming materials at the source, conduct inspections at various levels during the production process to prevent the occurrence of defective parts, and check at the end to curb the outflow of defective products, and strive for excellence.
